Want to use this dataset in Processing? Copy/paste the code below to Processing.

```

ov = new OpenVisuals(this); //required: initialize open visuals
String[] fields = { "title", "value" }; //create an array holding
the field names in your visualization
int[] types = {OpenVisuals.STRING, OpenVisuals.FLOAT};
ov.setFields(fields, types); //introduce fields required by the
visualization.
ov.setMaxRows(60); //introduce the max number of rows of
a dataset your visualization can handle.

ov.loadDatasetXML("http://www.openvisuals.org/dataset/
repository/dataset4c1f0854114c7307f6cb1587e91ba56a.xml");
//ov.createRandomTable();
  
```
